We provide more than products...We provide business solutions • We provide more than products...We provide business solutions

Environmental Responsibility Statement

The Kellermeyer Company acknowledges their responsibility to insure the company is maintaining sound environmental practices in daily business operations. Further, we recognize our responsibility to provide environmentally friendly products to our customers and to keep them informed on ways to improve the quality in their working environments.

These goals are achieved by the following:

Janitorial and paper products are inventoried that are Green Seal approved.

All sales staff are trained in Green Seal procedures and LEED requirements.

Seminars are offered to customers on environmentally sound practices for their facilities.

All Kellermeyer TEAM members are trained on using sound environmental practices.

All products in inventory are reviewed quarterly in an attempt to eliminate any products that have negative environmental impact.

Service technicians are fully trained on disposal of fluids from maintenance equipment.

Insure that all products being rationalized are taken to appropriate disposal facilities.

All possible used products are re-cycled, i.e. pallets, waste paper, boxes, packaging material, toner cartridges.

Lighting in all facilities has been changed to low energy fixtures and lights.

All Federal, State, and Local environmental laws are followed to insure compliance.

An environmental impact audit is completed annually.

The Kellermeyer Company and all of their TEAM members are committed to not only maintaining the environment but improving the environment.
